Onderwerp: HE Team Update

Good morning colleagues,

Here is the team update for this week.

GENERAL ANNOUNCEMENTS

- **Waterbouwprijs 2026:** The Dutch Association of Dredgers and Hydraulic Engineers (Vereniging van Waterbouwers, VvW) has opened the call for the Waterbouwprijs 2026, which recognizes outstanding graduation projects in the field of hydraulic engineering. You are kindly invited to nominate potential candidate graduation projects. Please send the following information by email to the HE Secretary before June 10th:
 - Name of the graduate
 - Title (or brief description) of the graduation project
 - Link to the graduation report in the TU Delft repository
- **Mini symposium Transport of plastic and debris, and floods in water systems:** On the 21st of May, a mini symposium will take place from 9:30-11:30 in room S3.01.057 in the Waterlab, titled *Transport of plastic and debris, and floods in water systems*. You are kindly invited to join.
- **KIVI North Sea Symposium:** The KIVI North Sea Symposium will take place on the 20th of May at X. Registration is available via the KIVI website and is free for students.
- **Symposium Integrated Infrastructure Design:** On Thursday 28th of May, from 13:30-16:30, the symposium Integrated Infrastructure Design will take place at TU Delft, Faculty of Architecture and the Built Environment, Room B. The event focuses on societal value creation and integrated infrastructure design, including a debate and the book presentation of the Integrated Infrastructure Design Guide.
- **EVAN 2026:** The 7th International Conference on Advances in Extreme Value Analysis and Applications to Natural Hazards (EVAN 2026) will take place from July 21-23 in Delft. The full conference programme is now available online. The conference offers talks, discussions and opportunities to connect with colleagues from the EVAN community.

TOPIC OF THE WEEK - TKI Deltatechnologie & call for ideas

As of 2026, the TKI Deltatechnologie funding approach has changed. Instead of pre-allocated budgets per partner, the full budget of approximately €7 million will be distributed competitively across three programme lines: A future-proof, adaptive delta; A safe, resilient delta; and A healthy, nature-inclusive delta.

There is still some remaining TKI budget from the 2022-2023 rounds. Colleagues with a ready project idea of approximately 1-1.5 years can still explore submission under the previous framework. Please contact Andrei Metrikine if you would like to discuss this option.

PERSONNEL DEVELOPMENTS

Vacancy Board of Studies MSc Construction Management and Engineering: A vacancy is open for a new staff member to join the Board of Studies (BoS) of the MSc Construction Management and

Engineering. The BoS monitors the development of the programme and advises on the quality of education. Interested colleagues can apply by sending a short motivation, maximum half an A4, to the Educational Management Team via EMT-CEG@tudelft.nl. The application deadline is 5 June 2026.

Vacancy Lab manager Hydraulic Engineering Laboratory: The vacancy for the Lab manager position has been posted to [the vacancy website](#).

Met vriendelijke groet / Kind regards,

Elske & Jelle
